## EGG THIEVES ARE JAILED FOR 60 DAYS

Three York men who stole four cases of eggs from an East Berlin area farmer, were each sentenced Saturday by the Adams County court to serve from 60 days to six months in the county jail and were ordered to pay the costs plus \$49.20 for the eggs.

The three were Philip L. Rogers, Howard L. Baker and David Royce Bowman. Rogers and Baker were sentenced on a charge of burglary and larceny involving a first theft on which the duo obtained eggs. Rogers and Bowman were sentenced on a charge of burglary and attempted larceny resulting from an attempt to steal eggs which went awry when the farmer appeared with a shotgun.

The men said they stole the eggs for their own household use. Baker said he had bought some eggs at the farm one time and then went back there later when he wanted more eggs. Rogers told the court, "We just got into mischief."

## TV THIEF SENTENCED

Charles Alvin Gable, of San Antonio, Tex., was sentenced to from 18 months to three years in the Allegheny County Workhouse on a charge of theft of television sets from the Highway Manor, McCoy and Battifield Motels here. Gable who was reported as having a "lengthy criminal record" was returned here from San Antonio where he had spent time in jail on a similar charge of stealing television sets. In addition to the costs he was directed to also pay \$179.95 each to the three local motels for the television sets taken from them.

Edward Alan Cook, Clifton Springs, N. Y.; Ronald Ward Bergman and William Robert Welp, both of Rochester, N. Y., were sentenced to from 29 days to one year on a charge of driving a motor vehicle without the consent of the owner. The men, one a college student in New York, were taken into custody April 21 when a resident of Straban Twp. reported to state police that three young men were "lying around in a woods." Police located the trio and found they had stolen a car. According to the information given the court Saturday by state police, the three were sick from carbon monoxide fumes breathed in driving the old model car here. The three told the court that Bergman had worked in Washington and had some clothes there and a check due him for work there. The three had no money, saw a car that they could start and planned to drive to Washington, pick up the check and clothes and return. They became ill near here and stopped the car in a secluded spot to rest and recover but were captured. Parents of the three were here. The court noted that the 29 days minimum of the sentence was completed at the time of sentence and directed that the three could be placed on parole to accompany their parents home after the costs were paid.

**MUST PAY \$100**  
John L. Smith, New Oxford R. 1, was sentenced to 15 days in jail on a hit and run charge and given a suspended sentence on condition he pay \$100 for the use of the county and the costs on a charge of failing to reveal his identity at the scene of an accident. Smith explained that he did not stop after his car hit a truck near New Chester because he "didn't have any insurance." Two hours later when his car struck two other vehicles near Cross Keys he said that a "couple of guys" took him to New Oxford to a physician after the accident. He said he didn't find the physician but he "didn't bother" to go back to the scene of the accident but instead reported into state police later. He was directed to pay the costs on both cases.

**45 DAYS FOR DRIVER**  
Two men charged with violations of the firearms act were each fined \$150 and the costs and their pistols were confiscated. Kyle Gene Hatcher, Gettysburg R. 6, told the court that he had stuck his 22 calibre pistol in its holster after using it legally for shooting and then forgot to take it out of his car. Several days later when police investigated a minor accident near Caledonia, they found the pistol. The court termed it "expensive forgetting."

Donald Kenneth Steiner, Gettysburg R. 4, told the court that he had not known his .38 calibre revolver was in his car until it was found by state police following an accident. He had taken the pistol to gunsmith who was looking at it when it began to

## Kennedy Sends Troops To Alabama; Violence Erupts

By DON MCKEE

BIRMINGHAM, Ala. (AP)—Federal troops were poised today to move into this tension-charged city as 1,200 police officers clamped virtual martial law on a wide section, scarred by rioting and night bombings.

President Kennedy sent Army troops to two Alabama bases with a grim warning that they would move into Birmingham if new violence erupts. Thousands of Negroes rioted early Sunday after bombs blasted a Negro minister's home and a motel.

Gov. George C. Wallace, arch-segregationist who once defied federal authorities over voter registration records, challenged the President's right to send in federal troops. He insisted state and local officers could preserve law and order.

City officials and Negro leaders issued strong appeals for law and order. Birmingham, like a city under siege, lay uneasily quiet

## Coldest May 12 Here in 60 Yrs.

A 34-degree reading at The Gettysburg Times weather station set a 60-year record for this date while unofficial readings as low as 25 degrees were reported in rural sections. There was a heavy frost.

Fruit and berry growers were uncertain about the effect on the fruit while farmers who have put out commercial crops of tomatoes feared damage to the tender plants. Apples and peaches are in a harder stage than at blossoming time and may have withstood the cold weather.

The low Sunday at The Times station was 35 degrees. The Arendtsville station reported a low of 39 degrees Sunday and 32 this morning. There was a report of 32 degrees at Seven Stars and Thomas O. Oyler reported the mercury dropped to 25 degrees in one of his Franklin Twp. orchards.

Sunday's low in Gettysburg made it the coldest May 12 in 25 years here.

Only last Thursday afternoon a 27-year heat record was set at 91 degrees.

The Jack and Jill Shoppe, Chambersburg St., will be closed from 1 to 3 p.m. Tuesday due to the death of Mrs. Cecil Guise.

"The Larger Family" was the subject of the sermon. Rev. Mr. MacAskill referred to the Christian home as "the laboratory for Christian living. A study of the lives of the successful men and women of today invariably shows the influences of devoted Christian mothers, whose sacrifices and wise direction have given purpose and confidence in the daily lives of their children," he added.

He referred briefly to the return of the congregation to its restored facilities and said tribute to all those who assisted in the extensive renovation project.

## GIFT TO SEMINARY

He said the formal dedication of the church will be held from June 23-27, at which time more complete recognition of renovation efforts will be made.

For the past year the congregation has been worshipping in the Church of the Abiding Presence at the Lutheran Seminary.

In appreciation of the seminary's "gracious gesture in ecumenical relations," Rev. MacAskill announced the gift of a Communion service to the seminary Church of the Abiding Presence. It will be presented to the seminary as soon as it is made.

## EXPRESSES THANKS

## All Areas 'Go' For Cooper's 22-Orbit Flight Into Space

By GEOFFREY GOULD

CAPE CANAVERAL, Fla. (AP)—Astronaut L. Gordon Cooper quietly entered a final pre-orbital day today, already caught up in the complex checkout of man and machine leading to his 22-orbit vault into space.

"I'm ready," he said. "All we have to do now is load, lox and launch."

Everything appeared to be "go" for the scheduled blastoff Tuesday morning that is to put Cooper into orbit longer than any American—more than 34 hours if all works right.

## RECOVERY NETWORK

A vast recovery network of ships and planes was spread out around the globe—the greatest such effort in history—ready to snatch up Cooper if it becomes necessary to stop the flight before 22 orbits are completed. If it goes the 600,000-mile route, Cooper will land in the Pacific Ocean Wednesday near Midway Island.

## Wendell Spidel, 32, Given 25 To 50 Years Sentence In State Pen For Assaulting Girls

Wendell Wayne Spidel Sr., 32-year-old farm worker and ex-convict, was sentenced to from 25 to 50 years in the state penitentiary at Philadelphia by the Adams County court Saturday.

The slight, thin, Carlisle resident did not answer when Judge W. C. Sheely asked if he had anything to say before sentence was imposed.

Spidel was brought to Gettysburg from Harrisburg Friday by Sheriff Dawson Miller and Deputy Sheriff James G. Warren. Today he was taken to prison.

## CONSECUTIVE TERMS

Judge Sheely imposed the maximum sentences, 7½ to 15 years, on each of the rape charges against him. The second sentence will start at the expiration of the first.

Then the judge imposed the maximum sentence on sodomy, five to 10 years, to begin after expiration of the sentences on the two other charges.

He then imposed a five to 10-year sentence on a burglary charge, about half the maximum, to begin at the expiration of the three other sentences.

A 2½ to 5-year sentence imposed on a larceny charge will run concurrently with the sentence on the burglary charge.

The court later said it had considered using the new one-day to life sentence but changed his mind because the new sentence provides for periodic re-examination of the prisoner and release if the examinations induce officials to believe that release might be permissible. Judge Sheely said he wanted the sentence to have the maximum effect both as a punishment for the defendant and a deterrent to others.

Married and father of a child, Spidel had spent four years in the Eastern Penitentiary previously on assault with intent to ravish and burglary charges in Dauphin County.

## ASSAULTED GIRLS

The charges here were based upon the assault of two Gettysburg College coeds March 24. Spidel accosted them on Oak Ridge and at gun point forced them to walk along the railroad tracks to a secluded spot where the assault occurred. He used a .38 caliber pistol to force the young women to do his bidding. The pistol had been stolen about 12 hours earlier from a Biglerville R. 1 home and the burglary and larceny charges were based on the theft of that weapon.

Spidel had been before the court about a month before for sentence and at that time it was decided to have a psychiatric examination made. He was removed to the state hospital at Harrisburg for the examination and then returned here Friday for sentence.

## 300 PUPILS IN PROCESSION

## SCHOOL BOUND TO SEWER PLAN

John G. Luntz, vice president of the Hamilton Twp. school board, today told The Times that the new Fairfield school "has an iron-clad contract for its own sewer system and filtering plant and there is no possibility of connecting to a borough system, if and when the borough installs one."

Luntz said that a "lot of misunderstanding" was created among residents of his township by a report from the Fairfield borough council meeting of May 6 in which council president Thomas Newman is reported to have said that the borough had hoped originally to have a sewer system in operation by the time the school construction was started but that plans still are delayed because the council has not received a reply to its application for federal support.

Luntz said that a contract was signed with the Waynesboro Construction Company to install a complete sewer system for the new addition to the Fairfield Joint School, which will be completed by January 2, 1964. He also said that the general contractor, A. H. Hostetter, Hanover, reports that the project is progressing on schedule. Luntz said that the sewer contract was awarded at a bid of \$71,877.

Under the plan, he said, Holy Name Societies will be asked to sponsor the courses which will be open to everyone. AUTHORITY  
ORDERS PIPE

New Oxford Municipal Authority has awarded a contract for 2,050 feet of 12-inch cement pipe for a new discharge line from the borough's sewage treatment plant.

The contract was given to Johns-Manville of Harrisburg at its low bid of \$1.79 a foot. The other bids were for \$1.80 and \$1.81 a foot.

New Oxford borough council turned down the authority's request that borough employees install the pipe. Consequently the authority will advertise for installation bids to be opened May 20 at 8 p.m. in the borough office.

The new discharge line is to comply with an Adams County court order requiring the authority to stop discharging waste into Little Conewago creek. The court order upheld a ruling of the state Sanitary Water board that pollution created by the discharge is potentially harmful.

The new line will carry the effluent to the South branch of Conewago creek, a larger stream.

Cooper's long loops around the earth may be the last Mercury flight. Next step is the Gemini two-man spacecraft and then the Apollo program aimed for the moon.

## MEDICAL DATA

The main purpose of Cooper's flight is the quest for medical knowledge to help the space program—specifically, what happens when a man rides weightless and virtually immobile that long.

The Russians have orbited two men longer, but they have been close-mouthed about what they found out. U. S. space scientists feel it is vital to find out for themselves.

Other major experiments include a complicated photography program, release of a flashing light globe during the flight, a tethered balloon to determine the drag at 100 to 170 miles altitude, and an attempt to sight a three-million candlepower light shined up at him from South Africa.

Can he go to sleep out there without trouble? "Yes, absolutely," said astronaut colleague Donald K. Slayton at a news conference Sunday.

Bob Linders of Gettysburg broke the school's half-mile record as he finished second in the University Division of the Middle Atlantic track and field championships Saturday at LaSalle College, Philadelphia.

Linders raced the 880 in 1:52.3 to erase the old mark that the Gettysburg Sophomore set earlier this season 1:53.8.

The Bullets also gained second places on the efforts of Lane Kneeder and Bob Clower.

Both Kneeder and Mike James, St. Joe, the high jump winner, cleared at 6'11" but James won first place on the least number of misses.

Clower was runner up in the javelin with a toss of 191'3 1/2". The winning toss by LaSalle's Joe McDyre was 207'.

Gettysburg's mile relay team of Pete Herslow, Chris Hayden, Jerry Staub and Linders was fourth in 3:21.6 as Temple ripped off a 3:15.6 to win. Linders had a 0:49.5 quarter while Hayden was timed in 0:49.6.

The annual May procession was held in St. Aloysius Catholic Church on Sunday evening with the traditional crowning of a statue of the Blessed Mother as "Queen of May." Susan Slagle, a member of this year's First Communion Class, placed the floral crown while the children of the school sang the hymn "Hail Virgin Dearest Mary." Carrying the crown was Brenda Shrader and attendants were Rita Thomas, Kathy Keefer, Toni Kerns and Lana Hake also members of the First Communion Class. All wore white dresses and white veils.

The crowning was preceded by a procession from the school to the church, led by crossbearer Gerard Altoff and acolytes David Klunk and Norman Redding with the children of the school and all of the altar boys participating.

The processionary hymn was "Immaculate Mary." Following the crowning, the Act of Consecration was said by all of the children with Carol Marker as leader. The service also included the hymn "Remember Holy Mary" and Benediction of the Blessed Sacrament with the pastor, the Rev. Dr. John E. Metz, as celebrant.

At a mass church meeting of about 2,000 Negroes, King said he considered Kennedy's statement a strong one which "shows the administration is concerned about this problem and is willing to take forthright action to preserve the citizenship rights of Birmingham Negroes."

## The Late Terrific Fights:

A graphic description of the terrible fights between Hooker and Lee will be found in following columns. It was a scene of terrible carnage. Our loss was over 10,000, while that of the Rebels was much greater. We lost about 1,700 prisoners, whilst we have 3 or 4,000 of theirs. Gen. Hooker not having any positive information from Gen. Stoneman's Division, and learning that the rebels were preparing to make a desperate attack upon him with all their reserve force from Richmond, and finding the river in his rear was beginning to rise from the heavy rains, he determined to recross the Rappahannock, which he successfully accomplished on Tuesday, and had his batteries properly posted for defence — the army in good spirits, and far from being demoralized, as had been thought. This movement caused a great down-heartedness all over the country, but since things look brighter, and we have more cheering news, The President, Gen. Halleck, and other distinguished officers, immediately on the receipt of the unwelcome news of the retreat of Gen. Hooker, went down the river to visit him and consult with him upon future plans. They returned on Thursday night and both the President and Gen. Halleck expressed themselves satisfied with what Gen. Hooker had done, and they have the most unbounded confidence in the commander of the Army of the Potomac. The President intimated to a friend that Gen. Hooker did just what he was sent to do, but circumstances beyond our control contracted his operations to their known limits. The Cavalry expedition of Gen. Stoneman was a brilliant success. A part of his force advanced to within two miles of Richmond, and cut off the enemy's communications in every direction. It was not done in time to be of any great assistance to Gen. Hooker, as the Rebels had poured their force upon the latter before the work was done. It will do good, however, in the future.

## Today's Talk

## PREADJUSTED RESOLUTION

In one of the essays of John Burroughs, I found this sentence: "One may walk all day nearly as easy as half that time if he is prepared beforehand. He knows his task and measures and distributes his powers accordingly."

If you set yourself to a task — and know in advance that it is going to be a very difficult one, you are not going to be easily discouraged.

The reason why big men accomplish wonders is that they see wonders in their brain long before they even attempt to work them out. Then, when they do get into the job itself, nothing can stop them from achieving great things.

Preadjust your resolutions — and put them high!

I recall taking a long trip in my car. I had just so much time to make it in — and a given number of miles to cover. I determined upon certain mileage for each day — and covered it — regardless of weather conditions or roads. I found myself covering a great distance in a day, over very bad roads in stretches, yet without being much fatigued at night. It is what you do not determine upon that is difficult.

Work out your day and all your plans, as nearly as possible, according to resolution. Things will then shape themselves with smoothness and you will go through your work with the least irritation and with greatly increased satisfaction.

The brain sort of fixes everything up with the body when it knows in advance just what has to be accomplished.

But one of the most valuable points to be gained in preadjusted resolutions is this — you have an objective — something to work toward that has within it a sense of inspiration. Somehow you say to yourself that the thing must and will be done.

So it is done!

## THE BOY OF IT

When he begins to brush his hair  
And part each tousled curl,  
And gladly stands to wash his hands  
I'll know he has a girl.

His mother sighs to see him now,  
So heedless of the dirt,  
Save she were there, to watch his wear,  
He'd never change his shirt.

Buttons to him are trivial things  
And useful when they're on,  
But why should he, much troubled be  
Because a few are gone.

And why this fuss because a hole  
Is in his stocking toe?  
If he's content to bear the rent  
Nobody else will know.

And why a bath? What eye can see  
When he is dressed for play  
From head to toe, whether or no  
He's had a bath that day?

His mother grieves about his ways,  
But wiser much am I,  
I'll know when he is slick to see,  
Some girl has caught his eye.

2 COMPANIES  
GUILTY; 4 MEN  
ACQUITTED IN  
LONG TAX CASE

By DAVE LEHERR

LEWISBURG, Pa. (AP)—United mine workers official August J. Lippi and three other men have been acquitted in U.S. District Court of charges of corporate income tax evasion.

A jury of six men and six women returned the verdict Sunday night, climaxing more than 30 hours of deliberation, believed to have been the longest ever in a federal case in the Middle District of Pennsylvania.

Two corporations, the Avon and Peeley mining companies of Wyoming, Pa., were convicted in the case.

## SENTENCING DEFERRED

Presiding Judge William J. Nealon deferred sentencing of the firms pending the possibility of an appeal. Defense attorneys were given five days, but gave no indication what they would do.

Acquitted with Lippi were Robert L. Dougherty Sr., former president of the two companies; and Frank Cardoni and Leonard Stankiewicz, former Lippi aides in the UMW.

Lippi is president of UMW District 1.

## FACES MORE CHARGES

The government contended that the two companies paid fraudulent wages and salaries and issued fraudulent checks in a scheme to evade \$106,189 in corporate income taxes between July 1, 1956 and Nov. 30, 1958.

Lippi, Dougherty, Stankiewicz and Cardoni were accused of setting up the scheme and winding up with the money.

Lippi still faces charges of personal income tax evasion and charges stemming from an alleged shortage of \$47,000 at the former First National Bank of Exeter where he served as president and board chairman.

Dougherty also was a defendant in the Knox case but became ill and is expected to stand trial later.

ORRTANNA—The May meeting of the Margaret Donaldson Bible Class of the local Methodist Sunday School was held Wednesday evening at the Ross King home with Mrs. Laura Cease as hostess.

The meeting was opened by the newly-elected president, Mrs. Mary Tressler, with a brief meditation and prayer after which the scripture reading from the 145th Psalm was given by the hostess.

Mrs. Ruth Donaldson, the newly-elected secretary, read the minutes of the previous meeting which were approved as read.

The treasurer's report showed a balance of \$116.68 after all bills were paid, including \$100 to the building fund and \$100 for current expenses.

Plans were made for a food sale May 23 in the church hall when homemade bread, rolls, pies, sticky buns, potato salad, peppercorn and fruit salad will be sold. The class also has the following articles for sale: butcher paring and steak knives, carving forks and vanilla extract.

Starting with strawberries, the class will be making jellies as in previous years to be for sale at any time.

The 21st and 22nd chapters of Acts were used during the study period under the direction of the teacher, Mrs. Tressler. Readings by members followed: "God's Precious Gifts," Mrs. Cease; "A Mother's Day Prayer," Mrs. Helen Rebert; "May," Mrs. Grace Wetzel; "Friendships and Her Day," Mrs. Ruth Donaldson; "A Doll and a Cent," Mrs. Tressler.

The guess box was won by Mrs. Ruth Donaldson. Hostess for June meeting was undecided.

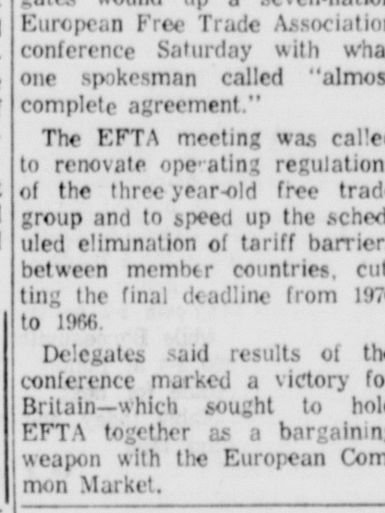

LISBON, Portugal (AP)—Delegates wound up a seven-nation European Free Trade Association conference Saturday with what one spokesman called "almost complete agreement."

The EFTA meeting was called to renovate operating regulations of the three-year-old free trade group and to speed up the scheduled elimination of tariff barriers between member countries, cutting the final deadline from 1970 to 1966.

Delegates said results of the conference marked a victory for Britain—which sought to hold EFTA together as a bargaining weapon with the European Common Market.

HARRISBURG (AP)—Public assistance rolls in the state declined by 14,200 persons during April, according to the public welfare department.

"An improving employment climate and a sense of urgency in getting people off public assistance rolls and onto payrolls are reflected in this decline of public dependency," Welfare Secretary Arlin M. Adams said over the weekend.

HARRISBURG (AP)—The Scranton administration is playing politics with the motor license fund, says Democratic State Chairman Otis B. Morse.

"The latest political maneuver by Pennsylvania's very political governor sees him making unfounded charges—without any basis of fact—against the previous administration in a letter transacting official commonwealth business to Pennsylvania municipalities—of course, at taxpayers' expense," Morse said in a statement over the weekend.

The letter to which Morse referred was sent to municipalities last month with semi-annual payments from liquid fuels taxes. The letter blamed delay in payments on the manner in which the previous administration had conducted its spending program.

HARRISBURG (AP)—Robert E. Hetherington, public relations director for the Pennsylvania Turnpike Commission, will take a similar post with the state Highway Department on Thursday.

Hetherington of new Cumberland, was named over the weekend to succeed William Dougherty, who had filled the post since 1955. The new appointee's annual salary will be \$12,675. Dougherty had received \$11,501.

HARRISBURG (AP)—The state Health Department says it is continuing its search for persons who were in Zermatt, Switzerland, during a typhoid epidemic last February and March.

The department reported over the weekend it had interviewed 121 persons who had visited the Swiss resort. Two had contacted the disease.

## DEVELOP HOT, BRIGHT BEAM

PITTSBURGH (AP)—Westinghouse Electric Corp. announced today the development of the world's most powerful continuous beam of light.

The firm said the beam also is the hottest and in two or three seconds can burn through a piece of steel as thick as that in an automobile fender.

A variety of uses is predicted for the new radiation source, including the study of re-entry heating, a major problem of the space age.

The energy, Westinghouse said, closely simulates that encountered by space vehicles during re-entry into the earth's atmosphere at speeds near their escape velocity—about 25,000 miles per hour.

The lamp which produces the beam of light employs a new concept in radiation sources. The energy comes from a high pressure plasma jet, hotter than the sun's surface. The jet is sealed inside a stainless steel vessel designed to operate at pressures up to 600 pound per square inch, which is 40 times the pressure of the atmosphere at sea level.

## Impressions On Capitol's Week Seem Vague Now

By RICHARD L. GRAVES

HARRISBURG (AP)—The most definite thing about the Capitol week just gone by is that the family of oafs in the dome still has a roof over its head.

Other things were vague, if not downright illusory. A political leader spoke scornfully of a non-existent person; a political party held a victory dinner in the ashes of its major defeat; a government agency decided to take a historical look at the future.

The political leader was Sen. Hugh Scott, R-Pa., who preached GOP gospel to a convention of college young Republicans last Sunday. He said:

### MIXED HIS MEN

"Some political scientists teach the total welfare state as the new paradise and some economists tout John Stewart Keynes as the Messiah of gross national product."

Now there were once two English economists. One was John Stewart Mill; the other John Maynard Keynes. Mill advocated a free economy; Keynes advocated a government-regulated economy. There was, or is, no known John Stewart Keynes.

The senator also took a cut at economist J. K. Galbraith, who is returning from a post as ambassador to India to rejoin the Harvard faculty.

### NOT CONFUSING IF—

"Dr. Galbraith is returning to Harvard, where there are new generations of the naive and gullible to be brainwashed from the old paternalistic bucket," said Scott.

Galbraith is one of President Kennedy's economic advisers. He also is a staunch advocate of broader use of the sales tax. But Gov. Scranton is not an economic adviser to President Kennedy. Furthermore, Yale man Scranton would never go to Harvard to brainwash anybody. Gov. Scranton is Sen. Scott's friend.

Confusing? Not if you look at it through a prism.

Electric Heat Is So Much Cleaner than any other kind. Mrs. Curry is particularly aware of this benefit. She notices that there's no oily film on walls, curtains or furniture. Her house stays clean and new-looking with less work.

Individual Room Temperature Control is one of electric home heating's biggest advantages. Separate thermostats in each room allow the Curry family to adjust temperatures for different needs.

Safe, Noiseless Electric Home Heating is an especially good choice when there are children in the family. As Mr. and Mrs. Curry point out, the noise made when heating pipes expand and contract can frighten children when they're alone in the house. Noiseless electric heat eliminates this possibility.

Comfortable Electric Heat adapts perfectly to a modern family's way of living—as the Currys have discovered.

## "Flameless Electric Home Heating Gives Us Draft-Free Comfort Throughout The House"

Mr. and Mrs. Lynn B. Curry, Jr. of Mount Wolf, Pa. tell why they're well pleased with electric heating

"Heat is available where, when and as we want it," say Mr. and Mrs. Curry, talking about what they consider one of the primary advantages of electric heat. "We can have extra heat in the bathroom, less in the bedrooms—because the temperature in each room is thermostatically controlled."

"Electric heat adapts to the design of a home—whether it's contemporary or traditional—without conflict. In fact," Mrs. Curry continues, "our electric heating system was arranged after we selected the design for our

home. The design didn't have to be changed to fit the heating plant. We like the absence of pipes or ducts and the resulting extra space."

Thousands of families in the Metropolitan Edison Company area are discovering those same benefits of flameless electric home heating. Like the Currys, they find that it's clean, versatile and comfortable . . . at very reasonable cost. If you're planning to buy, build or remodel, it will pay you to get complete information on this most modern heating method. See a Recommended Reddy Kilowatt Electric Home Heating Dealer, or call your nearest Metropolitan Edison Company office.

## There's An Electric Heating System Just Right For Your Home

Wall panel heaters have heating coils located behind a decorative grill. Small fans may be used with this thermostatically controlled unit.

Electric furnaces provide compact central heating systems which can be combined with central air conditioning for year-round use.

Heat pump heats home in winter, cools it in summer. It's automatically reversible and maintains any desired year-round temperature.

Baseboard units heat by both radiation and convection. All surfaces are warmed evenly, and control is by individual room thermostat.

## Cooper Spacecraft Will Carry Assorted Equipment

By HOWARD BENEDICT

CAPE CANAVERAL, Fla. (AP)—Astronaut Leroy Gordon Cooper's "Faith 7" spacecraft is like a woman's purse. Reach in and you'll find almost anything.

If Cooper rockets toward his 34-hour space flight as planned next Tuesday, he will carry along such items as an inflatable balloon, four cameras, an exercise device, medical monitoring gear, maps, star charts, medical monitoring devices, geiger counters, a 28-foot expandable radio antenna, shark repellent, a raft, an alarm clock, parachutes and spaghetti and meat sauce.

He'll even carry his own private satellite—a baseball-sized object equipped with flashing beacons which he plans to release into orbit during the third of his intended 22 circuits of the globe.

### SET FOR TUESDAY

The longest U.S. manned space flight yet planned is scheduled to start with the roar of an Atlas rocket between 8 a.m. and 10:30 a.m. Eastern Standard Time Tuesday. If the mission goes the full distance, Cooper's space chariot will parachute to a landing in the Pacific Ocean 80 miles southeast of Midway Island 34 hours 19 minutes later.

Project Mercury officials primarily will seek medical data during the long-duration mission to determine if a man's ability to perform is impaired by prolonged exposure to space weightlessness. As Cooper sweeps about the globe, medical sensors attached to his body will relay to ground stations information on heartbeat, blood pressure, temperature, respiration and other parameters.

### PLANS EXERCISE

As a means of preventing deterioration of muscle tone during the long weightless period, Cooper plans to exercise by pulling on a bungee cord—a giant stretchable rubberband-like device attached to the spacecraft floor between his feet.

The Air Force Major, 36, will eat regularly to maintain his strength. The menu includes bite-size tidbits and new dehydrated space foods which, when mixed with water, produces spaghetti, beef and gravy, chicken or lobster.

Cooper will rest periodically, and plans to take a nap for eight hours from the ninth to the 15th orbits. If he oversleeps, a ground station in Australia will send a radio alarm signal to wake him.

The inflatable 30-inch balloon, to be ejected on a 100-foot line during the sixth orbit, is to determine drag effect at the orbital altitude 100 to 170 miles high and to check Cooper's ability to judge distances in space.

The flashing beacon satellite, which will trail the capsule in a slightly different orbit, also will be used in a distance-judging test aimed at developing techniques for space rendezvous.

A television camera aboard Faith 7 may give American home viewers their first look at one of

their astronauts in orbit.

Geiger counters and other measuring devices will chart the amount of radiation along the orbital path.

## HOPE TO START WEEKLY SHOW NEXT SEASON

By BOB THOMAS

AP Movie-Television Writer HOLLYWOOD (AP)—"I look at it this way," said Bob Hope over a 3:30 p.m. breakfast of bacon, toast and marmalade, "I've been on television for 13 years doing the same thing. It's time I had a change."

He was talking about his reasons for undertaking a weekly Bob Hope Show next season—six of his regular variety shows, two "book" shows (musicals or comedies with plot), and the rest an anthology which he would host.

During his 13 years of specials, Hope has been defeated in the ratings only once (this season by the upstart "Beverly Hillsbillies"). So why would he want to venture into the weekly rat race?

### SEEKS PURPOSE

The answer would seem to be connected with Hope's fondness for cool, green cash.

"No, it doesn't make that much difference," he corrected. "I'm doing it mainly for myself—to give me a new challenge, a new dimension. It puts me into a different field, and I think I can do some good there."

"I'm really serious about getting some shows of quality in the anthologies we're going to do. There is a lot of talent around and I want to use it. Since this will be the Bob Hope Show, I'll have a hand in determining what will be on it. I want it to be good."

He is already wrestling with approaches to his hosting duties.

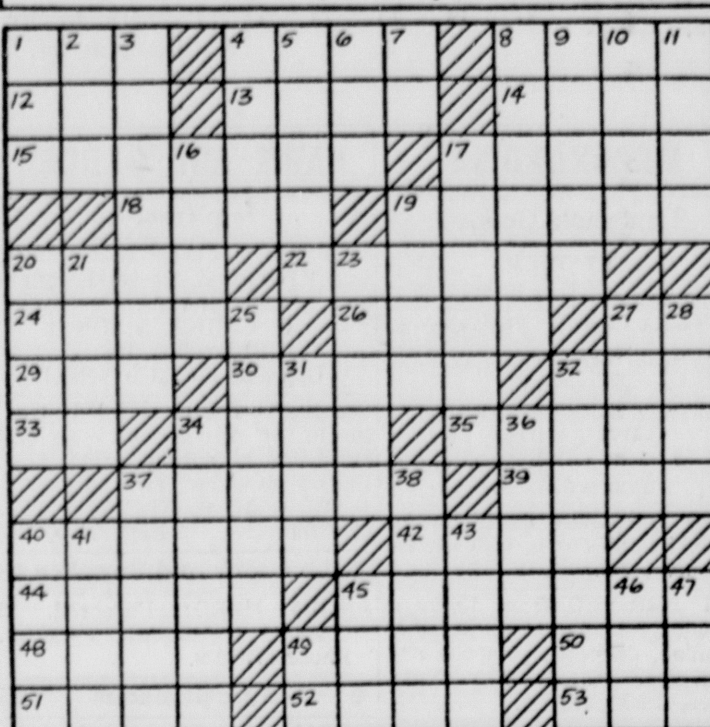

"A lot of my introductions will be straight," he commented. "I'm trying to get the right formula. I think the way Dick Powell introduced his show was about the best it has been done."

LONDON (AP)—Vladimir Ashkenazy, the prize-winning Soviet pianist granted permission to live in England last month, says he is going back to Moscow next week for a visit.

"I do not think the Russians will try to persuade me to stay there," the 25-year-old idol of the Soviet concert stage said Friday. He said the Russian ambassador in Britain assured him he could stay here.

He told newsmen he would discuss with the Soviet ministry of culture the circumstances that led him to remain in Britain. Ashkenazy reportedly has feared reprisals against his family in Moscow.

## Emmitsburg TOWN COUNCIL REORGANIZES

Emmitsburg council reorganized the town government after the recent elections at its monthly meeting recently in the Emmitsburg Town Library, which is operated by one paid librarian and volunteer part-time library workers.

The town council, which gave a donation to the library last year, postponed a decision as to whether they would increase their contribution this year.

He replaced Town Commissioner J. Norman Flax, the previous board president, who was put in charge of Emmitsburg's new town operated water system and the other town utilities, including the sewer system and street maintenance.

**NAME TREASURER**  
Dr. J. W. Houser, who was just elected to his second term as an Emmitsburg town commissioner, was named as the new town treasurer.

Mayor Ralph Ireland, who replaced retired Mayor Allen Bouey in the recent election, appointed Mrs. Raymond Baker as the new clerk of the commissioners, replacing Town Clerk Charles D. Gillelan, who ran against him for mayor. Mr. Gillelan now has no connection with the town government.

**OTHER BUSINESS**  
The Emmitsburg Conservation Club appeared before the town

council and promised to continue to maintain and supervise "Rainbow Lake" on top of a mountain which is now part of the town's watershed.

The conservation club has been maintaining the lake property for some time for the private water company from which the town purchased the water system.

Two women appeared before the Emmitsburg town meeting asking for additional contributions for the Emmitsburg Town Library, which is operated by one paid librarian and volunteer part-time library workers.

The town council, which gave a donation to the library last year, postponed a decision as to whether they would increase their contribution this year.

## BOROS WINS IN COLONIAL BY EASY MARGIN

By MIKE COCHRAN

FORT WORTH, Tex. (AP)—Julius Boros ignored the "Big Three" dynasty Sunday and waltzed, by a four-shot margin, to the championship of the \$60,000 Colonial national invitation golf tournament.

The big Mid Pines, N.C., veteran shuttled down the home stretch with a 1-over-par 71 to past a 279 total and douse a tournament victory drought that stretched back to 1960. The former national open champion picked up his last title check here three years ago.

Boros earned \$12,000 for his victory march, threatened by a gallant challenge from little Gary Player blazing down the home home stretch.

### THREAT ERASED

The lithe South African, trailing by eight shots after 54 holes, raced through the front nine in 32 strokes, dipped four under par at the 14th and to within two strokes of the leader.

A bogey at the 15th coupled with a Boros birdie at the 14th erased the threat. Both parred on in, which enabled Player to snatch the second prize of \$6,000 from favorite Jack Nicklaus, who had a par 70, a 284 total and third-place \$3,500.

Arnold Palmer never threatened to successfully defend his title here and wound up 20 strokes off the pace at 299.
